

## PRODUCT DESCRIPTION

- Designed to reach an IP67 waterproof rating
- Simple design and functionality

### FINISH :

Silver anodized

\*Custom colors available upon request

## TECHNICAL SPECIFICATION

### Application

- for surface mounting in existing furniture, built-ins, etc.

### Assembly

- using screws properly selected for the mounting surface and placed under the LED strip
- on the mounting strip mounted to the surface with properly selected screws

### Additional information

- possibility of making a linear fixture with IP67 protection, which means the fixture is dustproof and waterproof
- the profile fits dedicated mounting strips
- space for LED strip: 12.2 mm

Profile bending with covers: HS-12, K-12

Minimum internal radius	Minimum external radius
200 mm	250 mm

- minimum radius - bending radius which when exceeded causes destruction (deformation, bending or lack of compatibility with other accessories, e.g. covers, end caps, etc.) of the profile
- internal radius - refers to the profile bent so that the cover is facing the inside of the arch
- external radius - refers to the profile bent so that the cover is facing the outside of the arch
- irregular curves are possible after consultation and individual quotation
- when bending anodized profiles, one should be aware of cracking of the anode coating (which may be more or less visible depending on the radius)

**AVAILABLE LENGTHS**

Ref. nr.	surface finish	available lengths
B4369ANODA_1	Silver anodized	1000 mm
B4369ANODA_2	Silver anodized	2000 mm
B4369ANODA_3	Silver anodized	3000 mm
